EnergyCAP Express: Measure, Manage, Save

For many organizations, energy is the most controllable operating expense. But you can't control what you don't manage. Start managing your utility bills with EnergyCAP Express, web-based tracking software. Turn your energy information into savings. EnergyCAP Express is easy to use, quick to set up, and affordable—the ideal energy management tool for small and medium-sized organizations.

Benefits

- Identify inefficient facilities through peer benchmarking
- Audit utility invoices to catch mistakes
- Automatically receive ENERGY STAR ratings
- Calculate and report greenhouse gas emissions
- Communicate performance through a customizable dashboard and more than 100 online reports
- Reduce energy usage and spending organization-wide

Functionality Without Complexity

EnergyCAP Express provides all the functionality to effectively manage your organization's energy usage without the need for a lengthy, complex implementation process. And since it's completely web-based, there is no software to install, which means no burden on your IT department. Get up and running quickly.

Free, No-Obligation Trial

We are confident that EnergyCAP Express is the best web-based utility bill management application available, and to prove it, we'll let you try it FREE for 30 days with no obligation. Sign up and start saving today at <http://ediscoveri.com/services.html>.

eDiscoveri was formed to help customers:

- Manage relationships with electric utilities
- Increase operational uptime through improved electric supply reliability
- Reduce energy costs

eDiscoveri, a small business located in Henrico, VA USA, can provide industrial, governmental and commercial customer with tools and services to help them “discover energy solutions”.
